Pouch's website of the month

<http://www.landshare.net>
Landshare is a helpful website that connects growers with landowners
If you live in the United Kingdom and would love to grow your own vegetables, but don't have the space, then landshare.net is the site for you. Browse listings in your local area to connect with people who need to share an allotment, have too much garden and not enough time to maintain it, or organizations which require help with community gardens.
Similarly, if you have some spare land that you would like to put to good use, then you can submit it to the Landshare site.
Growing your own produce is a great way to keep fit and cut down on food miles!
