Pouch's website of the month

The gin in this case isn't the type you mix with tonic and a slice of lemon, but an acronym for an online magazine covering topics that are Green, Independent and Natural!

"The GIN Lady is an upbeat, fun and cosy online glossy under the influence of Green, Independent & Natural lifestyle brands."

New for July/August

We've added some new peg (clothespin) bags to our etsy store, each one is made from vintage fabric. There's no better way to dry your washing, than to peg it out and let it dry in the breeze
Did you know?

The tumble drier is one of the most energy-hungry appliances in the house

By reducing the number of times you use a tumble drier by just one load per week, you will reduce your carbon emissions by approximately 60kg a year. And reduce your electricity bill!
